Thanks for letting me know, Bill! I'm doing a final proofread, but here are my current in progress comments. I have to send them up in the next 30 minutes or so, and therefore I don't expect them to change much. I didn't comment on the UIC content, but I had some other comments where I thought they could do better framing. Also they have some conclusions that didn't seem to be well substantiated.

Good morning Mark,

Thank you for coordinating yesterday meeting.

I wanted to flag for you that we will be providing some comments. After a discussion with Jennifer yesterday, we decided that there were a few areas where we wanted to tune to be more neutral. In addition, the one last minute edit that we made last week is now being requested to be deleted. I sent this to Elizabeth who should be coordinating with our OCIR folks.

Cheers
Bill

Subject: CEQ Report

Good morning Elizabeth,

We met with Jennifer yesterday afternoon regarding the CEQ CCUS report. There are few edits that we have made in the attached document. Most of the edits are related to the tone. Our edits reflect a more neutral tone. There is also one edit where we have decided that we would like to strike language that we added in a previous version.

If you have any question, please let us know.

Cheers

Bill
